Downloading a Roster

engage^{ny}

Our Students. Their Moment.

New York State Growth Measures

My Roster

Your data file(s) will remain available until 3/22/12

Name	Administration	
GAGE, JENNIFER	2011-2012	Download

Data files are embedded in an archived (zipped) file (.zip). These archives allow the data files to be compressed and they can be extracted from the archive and saved.

To download data files:

1. Click the [Download] link. A window should pop up showing the .zip file name and an option to Open or Save the file.
2. Open the .zip file. You should see a Microsoft Excel icon and a file name that ends with .csv.
3. Double-click the CSV file to open it. The file should automatically open in Microsoft Excel.
4. Save the file to your preferred location on the computer. (Reminder: Student data are secure information and should not be accessed by other users.)

Note about archive software:

Some operating systems have built-in default software that allows users to unzip and extract the compressed files. If you download the zip file and cannot open it, you can install free software such as 7-Zip (Windows) or MacZip (Mac). AIR encourages users to download software from safe sites such as <http://download.cnet.com>. You may need to contact your school's technology or IT personnel for assistance.

Microsoft Excel 2003 users:

Excel may automatically "install" a plug-in necessary to read the file if your software is not up to date. This should take only a few seconds and then your file will open.
