

The IRSPortal

The Department has established the Information and Reporting Services Portal (IRSP) so that important information used for accountability and policy decisions and public reports may be quickly accessed by school superintendents and charter school principals. The IRSP is available through the SED Application Business Portal accessible at <http://portal.nysed.gov/portal/page/pref/PortalApp>.

The default setup allows download privileges only for the school superintendent (or principal for charter schools). The school superintendent (or principal for charter schools) must grant access to these files to designated staff members. User IDs and passwords necessary for access to the SED Web Business Portal are managed by the SED Delegated Account System (SEDDAS). Information regarding SEDDAS can be found at <http://www.emsc.nysed.gov/seddas/seddashome.html> or by calling the SEDDAS help desk at (518) 473-8832.

It is the responsibility of each school superintendent to ensure adherence to all procedures and processes for safeguarding the privacy of individual students. Information regarding poverty status and eligibility for free and or reduced price lunch must not be shared in combination with any other information about a student and must be made available only to the person responsible for verifying the accuracy of these data. Additional information on this topic is available in the Student Information Repository System (SIRS) manual.
