

Standard For Success

Lunch-n-Learn

April 28 from 12:00 to 2:00pm • Onondaga/Oneida Room

Standard for Success is a web-based tool for staff evaluations, and this Lunch-n-Learn is designed to show how SFS can help to make teacher evaluations meaningful.

Standard for Success

helps schools build effective teacher evaluation programs from the ground up with our fully customizable teacher evaluation software.

As educators, we genuinely care about the results schools and teachers see from implementing our software and using our services in coordination with their evaluation process.

Better yet, we don't make you adjust to our solution.

We customize our solution to the needs of your administrators, teachers, and schools.
