

Senior Deputy Commissioner
Education Policy

December 2014

TO: District Superintendents
Superintendents of Public and Nonpublic Schools
Principals of Public, Charter, and Nonpublic Schools

FROM: Ken Wagner 

SUBJECT: Transition to Common Core Regents Examinations in English Language Arts and Mathematics, Original Issue Date: March 2013
Fifth Update: December 2014

At its December 2014 meeting, the Board of Regents approved the provision of an additional opportunity in June 2015 for those students who are receiving Algebra I (Common Core) instruction that began prior to September 2014 to take, at the school's discretion, the Regents Examination in Integrated Algebra **in addition to** the Regents Examination in Algebra I (Common Core) to meet the requirement for graduation and to use the higher score for transcript purposes.

The Board of Regents adopted the Common Core State Standards (CCSS) for English Language Arts & Literacy and Mathematics at its July 2010 meeting and incorporated New York-specific additions, creating the Common Core Learning Standards (CCLS), at its [January 2011 meeting](#).

In order to ensure adequate notice and time for students to be prepared to take the new Regents Exams measuring the CCLS, and based on feedback from the field, the Department is providing an overlap in the administration of the current Regents Exams measuring the 2005 Learning Standards with the new Regents Exams measuring the New York State Common Core Learning Standards and a phased-in sequence for math. At its November 2014 meeting, the Board of Regents approved a further adjustment to the transition plan, changing the last date of administration of the old Regents Examination in Integrated Algebra from January 2015 to **June 2015**. This addition of the **June 2015** administration of this exam is reflected in the attached updated *Mathematics Regents Examination Implementation Transition Timeline to Common Core Courses and Exams* (Attachment B) and in the updated *Regents Examination Schedule: June 2015* (Attachment C).

The Department proposed regulations regarding adjustments made to the transition plan to the Board of Regents in time for their adoption prior to the effective exam periods. To assist schools in the transition, Test Guides, and sample questions are available at <http://www.engageny.org/resource/regents-exams> for the Common Core Regents Exams in ELA and Algebra I and for the Regents Exam in Geometry (Common Core) that will be administered for the first time in June 2015.

ELA

Although not a “comprehensive” exam, the new Regents Exam in ELA (Common Core) is designed to be administered at the end of Grade 11, similar to typical practice with the current Regents Comprehensive Exam in English.

All students first entering Grade 9 in the 2013-14 school year or thereafter must be provided with a high school English course of study aligned to the CCLS and pass the new Regents Exam in ELA (Common Core), which is designed to be administered at the end of Grade 11, to meet graduation requirements.

All students who first entered Grade 9 prior to the 2013-14 school year may meet the requirements for graduation by enrolling in Common Core English courses and passing the new Regents Exam in ELA (Common Core) or enrolling in English courses aligned to the 2005 Learning Standards and passing the Regents Comprehensive Exam in English (2005 Learning Standards), while that exam is still being offered.

For the January 2014, June 2014, August 2014, January 2015, June 2015, and August 2015 administrations only, students enrolled in Common Core English courses may, at local discretion, take the Regents Comprehensive Exam in English (2005 Learning Standards) in addition to the Regents Exam in ELA (Common Core). If students take the old Regents Exam in addition to the new Regents Exam, the higher of the two scores may be used for local transcript purposes, and will be used for institutional accountability for the 2013-14 and 2014-15 school year results. For purposes of Annual Professional Performance Reviews (“APPR”) conducted pursuant to Education Law §3012-c and Subpart 30-2 of the Rules of the Board of Regents (“regulations”), the higher of the two scores may also be used for the State growth and locally selected measures subcomponents, where such exams are allowable options under Education Law §3012-c. Any APPR plans in effect for the 2013-14 and 2014-15 school years should reflect this local flexibility, as appropriate and allowable under Education Law §3012-c and the regulations.

See below for a summary.

Date of first entry into Grade 9	Course of Study	Required Assessment
2013-14 or thereafter	English Courses – Common Core	Regents Exam in ELA (Common Core)*
Prior to 2013-14	(a) English Courses – Common Core Or (at local discretion) (b) English Courses – 2005 Learning Standards	If (a), then Regents Exam in ELA (Common Core)* If (b), then Regents Comprehensive Exam in English (2005 Learning Standards)

* For the January 2014, June 2014, August 2014, January 2015, June 2015, and August 2015 administrations only, students enrolled in Common Core English courses may, at local discretion, take the Regents Comprehensive Exam in English (2005 Learning Standards) in addition to the Regents Exam in ELA (Common Core).

Attachment A provides additional information on the first administration of the new Regents Exam in ELA (Common Core) in June 2014 and the last administration of the Regents Comprehensive Exam in English (2005 Learning Standards) in June 2016.

Mathematics

Any student who in the 2013-14 school year or thereafter, regardless of grade of enrollment, begins his or her first commencement-level math course culminating in a Regents Exam in June 2014 or later must take the New York State CCLS Regents Exam in mathematics that corresponds to that course, as available, and be provided with Common Core instruction. Most typically, this first course will be Algebra I (Common Core).

Those students who began or will complete an Integrated Algebra, Geometry, or Algebra 2/Trigonometry course prior to the 2013-14 school year must take the corresponding Regents Exams aligned to the Mathematics Core Curriculum (Revised 2005), while those exams are still being offered.

For the June 2014, August 2014, and January 2015 administrations only, students receiving Algebra I (Common Core) instruction may, at local discretion, take the Regents Examination in Integrated Algebra (2005 Revised) in addition to the Regents Examination in Algebra I (Common Core). For the newly added **June 2015** administration only, students receiving Algebra I (Common Core) instruction that **began** prior to September 2014 also may, at local discretion, take the Regents Examination in Integrated Algebra (2005 Revised) in addition to the Regents Examination in Algebra I (Common Core). If students take the old Regents Exam in addition to the new Regents Exam, the higher of the two scores may be used for local transcript purposes, and will be used for institutional accountability for the 2013-14 and 2014-15 school year results. In addition, such students may meet the mathematics exam requirement for graduation by passing either of these exams. For purposes of APPRs conducted pursuant to Education Law §3012-c and the regulations, the higher of the two scores may also be used for the State growth and locally selected measures subcomponents, where such exams are allowable options under Education Law section 3012-c. Any APPR plans in effect for the 2013-14 and 2014-15 school years should reflect this local flexibility, as appropriate and allowable under Education Law §3012-c and the regulations.

For the June 2015, August 2015, and January 2016 administrations only, students receiving Geometry (Common Core) instruction may, at local discretion, take the Regents Examination in Geometry (2005 Learning Standard) in addition to the Regents Examination in Geometry (Common Core). If students take the old Regents Exam in addition to the new Regents Exam, the higher of the two scores may be used for local transcript purposes, and will be used for institutional accountability for the 2014-15 and 2015-16 school year results. In addition, such students may meet the mathematics exam requirement for graduation by passing either of these exams. For purposes of APPRs conducted pursuant to Education Law §3012-c and the regulations, the higher of the two scores may also be used for the State growth and locally selected measures subcomponents, where such exams are allowable options under Education Law section 3012-c. Any APPR plans in effect for the 2014-15 school year should reflect this local flexibility, as appropriate and allowable under Education Law §3012-c and the regulations.

See the next page for a summary.

Students	Course of Study	Required Assessment
Students who in the 2013-14 school year or thereafter, begin their first commencement-level math course culminating in a Regents Exam in June 2014 or later, as available	Math Courses – Common Core (Algebra I, Geometry, Algebra II)	Regents Exam in Math (Common Core)*
Students who prior to the 2013-14 school year began or will complete a math course aligned to the Mathematics Core Curriculum (Revised 2005)	Math Courses – Revised 2005 (Integrated Algebra, Geometry, Algebra 2/ Trigonometry)	Regents Exams aligned to the Mathematics Core Curriculum (Revised 2005)

* For the June 2014, August 2014, and January 2015 administrations only, students receiving Algebra I (Common Core) instruction may, at local discretion, take the Integrated Algebra Regents Exam (2005 Standard) **in addition to** the Common Core Algebra I Regents Exam. For the newly added **June 2015** administration only, students receiving Algebra I (Common Core) instruction that began prior to September 2014 also may, at local discretion, take the Regents Examination in Integrated Algebra (2005 Revised) **in addition to** the Regents Examination in Algebra I (Common Core). For the June 2015, August 2015, and January 2016 administrations only, students receiving Common Core Geometry instruction may, at local discretion, take the Geometry Regents Exam (2005 Standard) **in addition to** the Common Core Geometry Regents Exam.

Attachment B provides additional information on the first administrations of the new math Regents Exams (Common Core) and the last administrations of the math Regents Exams [Mathematics Core Curriculum (Revised 2005)].

It is expected that the commencement-level math courses culminating in CCLS Regents Exams will be taught to most students in a sequential manner, beginning with Algebra I in the 2013-14 school year, followed by Geometry in 2014-15 and Algebra II in 2015-16. Consequently, and based on feedback from the field, the Department decided to postpone the first administrations of the CCLS exams in Geometry and Algebra II until June 2015 and June 2016, respectively.

Schools that planned to offer Algebra I (Common Core) as a semester-long course during the 2013-14 school year were encouraged to do so during the second semester so that students could take the Algebra I (Common Core) exam when first available in June 2014 and immediately upon completion of the course.

Similarly, schools that plan to offer Geometry (Common Core) as a semester-long course during the 2014-15 school year are encouraged to do so during the second semester so that students can take the Geometry (Common Core) exam when first available in June 2015 and immediately upon completion of the course.

Student Records

Schools must maintain complete and accurate permanent records. Each time that a student takes a State exam at the scheduled time under proper supervision, the name of the exam, the date of administration, and the score must be entered in the student's permanent record, unless the score has been canceled because of fraud or misadministration. If a student who has failed an exam retakes the exam and achieves a passing score, the school is required to record only the higher score on the student's transcript. These transcript decisions should be made in consultation with the student, and the student's choice of score for official transcript purposes should be respected whenever possible.

Calculation of State Aid Allocations During Regents Exam Administration

June 2, 2015 and all of the remaining days on which Regents exams are administered, as shown on the June 2015 exam schedule, will be counted for the purpose of meeting the 180-days of session requirement for state aid purposes. If students are excused in order to provide adequate staffing and space for the administration of the exams on these days, schools are permitted to excuse students located in the same building who are not taking these exams. All possible efforts should be made to maintain a regular schedule for students who are not testing on June 2, given the proximity to final exams and the regular Regents testing period.

Field Testing

In February the Office of State Assessment will notify school principals or designated assessment directors regarding field testing of questions by students in May 2015 for the Regents Exam program. Schools must participate in field testing to ensure that the field tests are administered to a representative sample of students from across New York State. Field testing provides the data and feedback necessary to develop exams that are fair and valid. In New York State, Regents Exams are shared with the public after they have been administered. This makes it necessary to develop new secure exams for each administration. More field test forms than are typical will be necessary this May, in order to develop the new Common Core Regents Exams while supporting an overlap of these new exams with the old exams during the transition period.

Please contact the Office of Curriculum & Instruction by e-mail at emscgradreq@nysed.gov for questions concerning graduation requirements and at emscurric@nysed.gov or by phone at 518-474-5922 for questions concerning curriculum. If you have any questions concerning the new Regents Exams, the exam schedule, or the implementation timeline, please contact the Office of State Assessment by e-mail at emscassessinfo@nysed.gov or by phone at 518-474-5900 or 5902. If you have questions concerning APPR plans, please contact educatoreval@nysed.gov.

THE STATE EDUCATION DEPARTMENT
 Office of State Assessment
 Albany, New York 12234

EXAMINATION SCHEDULE: JUNE 2015

UPDATED 12/16

Revision to the original schedule is highlighted in pink.

Students must verify with their schools the exact times that they are to report for their State examinations.

June 2 TUESDAY	June 16 TUESDAY	June 17 WEDNESDAY	June 18 THURSDAY	June 19 FRIDAY	June 22 [♠] MONDAY	June 23 TUESDAY	June 24 WEDNESDAY	June 25 THURSDAY
9:15 a.m.	9:15 a.m.	9:15 a.m.	9:15 a.m.	9:15 a.m.	9:15 a.m.	9:15 a.m.	9:15 a.m.	RATING DAY
<i>RE in English Language Arts (Common Core) ♦</i>	RE in U.S. History & Government	RE in Global History & Geography	Integrated Algebra	Physical Setting/ Earth Science Algebra 2/ Trigonometry	RCT in Global Studies*	Physical Setting/ Chemistry RCT in Science*	RCT in Reading	
1:15 p.m.	1:15 p.m.	1:15 p.m.	1:15 p.m.	1:15 p.m.	1:15 p.m.	1:15 p.m.	1:15 p.m.	Uniform Admission Deadlines Morning Examinations 10:00 a.m. Afternoon Examinations 2:00 p.m.
<i>RE in Geometry (Common Core) ♦</i>	Living Environment	Physical Setting/ Physics RE in Algebra I (Common Core)	Comprehensive English	Geometry (2005 Standard)	RCT in Writing	RCT in U.S. History & Government*	RCT in Mathematics*	

♠ Suggested date for administering locally developed tests aligned to the Checkpoint A and Checkpoint B learning standards for languages other than English.

* Available in Restricted Form only. Each copy of a restricted test is numbered and sealed in its own envelope and must be returned, whether used or unused, to the Department at the end of the examination period.

♦ Conversion Charts for these exams will be available no later than June 25, 2015.
