

CNYRIC RTI Audit Areas of Focus

What will this process provide the district?

CNYRIC Data Coordinators/RTI Consultants will provide a comprehensive look at the current state of a district's use of instructional data, including a focus on assessments in an RTI model. The process will support districts in making clear and focused decisions. The audit will report the overall findings and provide recommendations for next steps, with a focus on the following areas:

- ***District Level Philosophies***
 - District vision
 - RTI plan and compliance
 - Alignment with building plans
- ***Infrastructure***
 - Leadership supports
 - Data team(s) processes
 - Resource allocation
- ***Assessments***
 - Review of existing K-12 assessment practices
 - Administration protocols
 - Uses of assessment data
- ***Interventions***
 - Instructional approaches (Tier 1, Tier 2, Tier 3)
 - Intervention resources
 - Scheduling models
- ***Staff Perceptions***
 - RTI and effective use of assessments
 - Data use
 - Effective intervention strategies

What will districts receive at the end of this process?

Using information gathered from surveys, interviews, and document reviews, the CNYRIC Team will create a written report to address all areas covered by the audit. Individual meetings will be scheduled with district leaders to discuss the recommendations included in the report.
