

# Digital Signage Service

## Display School News With Our Digital Signage Service

Our **Digital Signage Service** supports digital displays that showcase school district events, news, social media, and more. The platform is 100 percent cloud-based and requires no district server equipment. Display presentations are created by the CNYRIC and content is uploaded dynamically from a variety of sources.

### Five Digital Signage Benefits:

- 1** Showcase success stories via photos, social media feeds, and announcements.
- 2** Engage students and staff with up-to-date news and information.

### WIDGETS:

Our **Digital Signage Service** offers a variety of features and widgets to allow for complete customization of displays.

- Analog/Digital Clock
- News Feed
- Flash/HTML/RSS
- Text Scroller
- Google Calendar
- Twitter
- Google Spreadsheet
- Weather - 1 Day/3 Day
- Google Maps
- Web Pages
- Images/Slideshows
- **And More!**

### PLAYERS:

Install the **Chrome Package App** on your device to start deploying displays on your network. This player works on Chromeboxes, Windows, Linux, Mac and even Raspberry PI 2 devices.

- 3** Inform school visitors.
- 4** Control messaging by uploading content anytime, anywhere.
- 5** Strengthen school pride and awareness.
