

Central New York Data Analysis Community (CNYDAC)

Proposed Agenda **October 8, 2009** **10:30-12:30**

1. Introductions

2. COGNOS Updates

- What new reports have been added? How might they be used?
- How have the cubes been updated? What implications might this have for analysis?
- What other reports/cube development are needed?

3. Common Assessments

Presenters:

Neal Capone, District Data Coordinator

Neal will share a database he is utilizing to support a district in collecting reading benchmark assessments.

Terry Ward, District Data Coordinator

Terry will share how he is utilizing RTIm Direct to support a district in collecting assessment information on students.

- What common assessments are administered in districts?
- How is this data currently collected and used?
- What tools might helpful in collecting and analyzing this data?
- How might the Data Warehouse assist with this process?

4. Survey Results

- What might be some topics members are interested in exploring/discussing at upcoming meetings?

5. Upcoming Meeting Dates & Agendas

- December 10th 10:30 – 12:30
- April 15th 10:30 – 12:30
