

CNYDAC

Central New York Data Analysis Community

Mission:

The Central New York Data Analysis Community (CNYDAC) exists to provide direction, expertise, and support to component schools for intelligent and responsible use of data to improve student achievement.

Functions:

- Share best practices for establishing collaborative cultures around data and for utilizing data effectively.
- Provide support for the use of data analysis tools such as *COGNOS PowerPlay* cubes, *ReportNet* reports, *DataMentor*, and *nySTART*.
- Prioritize and recommend reports and templates for data analysis.
- Provide guidance and support for professional development focused on data analysis.
- Coordinate communication efforts on data analysis among CNYRIC, BOCES, and school districts.
- Serve as a Central NY regional liaison for statewide educational organizations focused on data analysis and reporting.

Information available:

<http://www.cnyric.org/cnyric/advisedetail.cfm?ID=13>

Who should attend?

Facilitators of Data Analysis including:

- curriculum coordinators/directors/supervisors
- district/building administrators
- instructional specialists/content area coaches
- department chairs/leaders
- teacher leaders
- other data team members/data facilitators

**First Meeting:
November 13, 2008**

Hosted by:
