Perform these tasks to get ready to use your Renaissance Place software in the next school year. (You do not need to wait for the old school year to end; you can simply choose to work in the new school year *before* you follow these steps.)

If you have the Renaissance Data Integrator (RDI) service, your Renaissance Place database is automatically linked to your student information system (SIS) data. **Do not follow the steps in this help topic;** instead, contact your Technical Services Consultant to set up RDI for the new school year.
