

Digital Signage Service

Display School News With Our Digital Signage Service

Our **Digital Signage Service** supports digital displays that showcase school district events, news, social media, and more. The platform is 100 percent cloud-based and requires no district server equipment. Display presentations are created by the CNYRIC and content is uploaded dynamically from a variety of sources.

Five Digital Signage Benefits:

- 1 Showcase success stories via photos, social media feeds, and announcements.
- 2 Engage students and staff with up-to-date news and information.
- 3 Inform school visitors.
- 4 Control messaging by uploading content anytime, anywhere.
- 5 Strengthen school pride and awareness.

WIDGETS:

Our **Digital Signage Service** offers a variety of features and widgets to allow for complete customization of displays.

- Analog/Digital Clock
- News Feed
- Flash/HTML/RSS
- Text Scroller
- Google Calendar
- Web Pages
- Google Spreadsheet
- **And More!**
- Google Maps
- Images/Slideshows

Base fee for service is **\$2,000**.
Each presentation is **\$200**.

PLAYERS:

Install the **Chrome Package App** on your device to start deploying displays on your network. This player works on Chromeboxes, Windows, Linux, Mac and even Raspberry PI 2 devices.

“We post our morning announcements, athletics information, and photo slideshows on our digital signage. Students enjoy seeing their pictures and the staff like that the information is easy to update so that it remains current and meaningful. Parents and visitors also like seeing what’s happening in our school when they walk into our building.”

Andrew J. Dutcher, MS/HS Teacher Librarian
Dryden Central School District
