

For district and school managers of AIMSweb

During the AIMSweb user group meetings we will share updates, enhancements, and share local expertise. At each meeting, we will dialogue about benchmarking, progress monitoring data, and RTI caseload management. Participants will also have the opportunity to share AIMSweb best practices. Lastly, at each meeting participants will have the opportunity to ask local experts any questions.

Goals

After this workshop, you will be able to...

- Manage building level AIMSweb data
- Implement best practices in your school building/district
- Use AIMSweb to the fullest potential
- Be the AIMSweb resource in your school district

Fridays during 2011-2012
