Data Warehouse Department

RTI Professional Learning Community

cnyric
Connecting Education

For district and school leaders who are responsible for their district's RTI processes

During this series participants will discuss best practices for interventions, learn ways to facilitate RTI data discussions, and develop RTI documentation for their districts. The RTI PLC will have a series of guest speakers and local experts sharing their thoughts and strategies when it comes to tiered interventions, data management, and decision making rules.

Fridays during 2011-2012
October 14
February 10
June 8

12:30 – 3:30
CNY Regional Information Center
Conference Rooms 1 and 2
6075 East Molloy Road

Facilitators

John Donegan
CNYRIC Systems Consultant

Larry Hunt
CNYRIC District Data Coordinator

Terry Ward
CNYRIC District Data Coordinator

Goals

After this PLC series, you will be able to...

- **Establish a district-wide process for talking about RTI data**

- **Implement best practices in your school building or district**

- **Use RTI data to evaluate programs**

- **Create entrance and exit criteria for students in the RTI process**

Register
