

These sessions will help RTIm Direct users become proficient

During user group meetings participants will learn basic and advanced features of RTIm Direct. Information about enhancements to the software will also be disseminated. Participants will also have the opportunity to engage in a question and answer period.

Goals

After these user group meetings, participants will be able to...

- Use basic and advanced features within RTIm Direct
- Have accurate documentation for RTI and AIS services
- Create a system where all stakeholders are kept informed of RTI and AIS services

9:30 - 12:30
